

KS3 Age Related Expectations

GEOGRAPHY

YEAR 7

APPROACHING STANDARD

I know basic geographical knowledge such as places, scale, human and physical geography.

I can begin to understand different concepts and processes, with some links to case studies, figures and geographical contexts.

I use geographical skills such as maps, maths, graphs and figures with variable accuracy. I can recognise basic fieldwork skills.

AGE RELATED

I know some geographical knowledge such as places, scale, human and physical geography.

I can describe different concepts and processes, linked to case studies, figures and geographical contexts.

I can use geographical skills such as maps, maths, graphs and figures with limited accuracy. I can begin to use basic fieldwork skills.

GREATER DEPTH

I have good geographical knowledge such as places, scale, human and physical geography.

I can explain different concepts and processes, linked to case studies, figures and geographical contexts.

I can use geographical skills such as maps, maths, graphs and figures with improved accuracy. I can use basic fieldwork skills.

GREATER DEPTH PLUS

I have detailed geographical knowledge such as places, scale, human and physical geography.

I can explain in detail different concepts and processes, linked to case studies, figures and geographical contexts.

I can use a wide range of geographical skills such as maps, maths, graphs and figures with accuracy. I can use most fieldwork skills.

How do I make progress in Geography?

PROGRESSION

YEAR 8

APPROACHING STANDARD

I know some geographical knowledge such as places, scale, human and physical geography.

I can describe different concepts and processes, linked to case studies, figures and geographical contexts.

I can use geographical skills such as maps, maths, graphs and figures with limited accuracy. I can begin to use basic fieldwork skills.

AGE RELATED

I have good geographical knowledge such as places, scale, human and physical geography.

I can explain different concepts and processes, linked to case studies, figures and geographical contexts.

I can use geographical skills such as maps, maths, graphs and figures with improved accuracy. I can use basic fieldwork skills.

GREATER DEPTH

I have detailed geographical knowledge such as places, scale, human and physical geography.

I can explain in detail different concepts and processes, linked to case studies, figures and geographical contexts.

I can use a wide range of geographical skills such as maps, maths, graphs and figures with accuracy. I can use most fieldwork skills.

GREATER DEPTH PLUS

I have a deep and broad geographical knowledge of a range of places, scale, human and physical geography.

I can evaluate and assess different contexts and processes, linked to case studies, figures and geographical concepts.

I can use a wide range of geographical skills such as maps, maths, graphs and figures with confidence and accuracy. I can use most fieldwork skills competently.

PROGRESSION

YEAR 9

APPROACHING STANDARD

I have good geographical knowledge such as places, scale, human and physical geography.

I can explain different concepts and processes, linked to case studies, figures and geographical contexts.

I can use geographical skills such as maps, maths, graphs and figures with improved accuracy. I can use basic fieldwork skills.

AGE RELATED

I have detailed geographical knowledge such as places, scale, human and physical geography.

I can explain in detail different concepts and processes, linked to case studies, figures and geographical contexts.

I can use a wide range of geographical skills such as maps, maths, graphs and figures with accuracy. I can use most fieldwork skills.

GREATER DEPTH

I have a deep and broad geographical knowledge of a range of places, scale, human and physical geography.

I can evaluate and assess different contexts and processes, linked to case studies, figures and geographical concepts.

I can use a wide range of geographical skills such as maps, maths, graphs and figures with confidence and accuracy. I can use most fieldwork skills competently.

GREATER DEPTH PLUS

I have a deep, broad and detailed geographical knowledge of a wide range of places, scale, human and physical geography.

I can evaluate and assess the extent of many different contexts and processes, linked to case studies, figures and geographical concepts.

I can use a wide range of complex geographical skills such as maps, maths, graphs and figures with confidence and accuracy. I can use most fieldwork skills competently and accurately.
