Dear Parent/Carer,

Exciting Opportunities for Students Interested in Medicine

We are pleased to share an excellent opportunity for Year 10 and Year 11 students who are considering a future career in medicine. The event is run by *Premed Projects*, an organisation specialising in work experience and preparation for aspiring medical students aged 14–18.

Future Doctors Month – Free Online Programme (November 2025)

Throughout November, students can take part in *Future Doctors Month*, a completely free, month-long virtual programme designed to give valuable insight into a career in medicine.

Key features include:

- Six live sessions led by NHS doctors, covering case studies, clinical skills, and medical ethics
- On-demand access to recordings for 60 days
- An end-of-programme knowledge test with an official Certificate of Completion – ideal for future UCAS applications
- Open to all students aged 14 and over
- With over 2,000 students expected to take part, this is one of the largest events of its kind

Full details and booking can be found [here](#).

We strongly encourage any students with an interest in medicine or healthcare to take advantage of this opportunity. The programme offers valuable experience, skill development, and is a strong addition to any future application for medical school or related fields.

If you have any questions or would like support registering, please don't hesitate to get in touch.

Yours faithfully

Rebecca Bamber

Assistant Head of Science Faculty
